GENERAL NEWS.

AFTER THE CONVENTION

Gov. Hendricks has not yet Accepted.

TILDEN SERENADED BY THE JACKSON GUARDS.

Organiztaion of the Democratic Executive Committee.

RATIFICATION MEETING AT WASHINGTON.

INDIANAPOLIS June, 29.

Gov. Hendricks having positively declined to be a candidate for Vice President in repeated telegrams to his friends last night, will not consider the subject of the acceptance of the nomination made today, until the return of the Indiana delegation from the convention.

The Notification by Kelly and Schell.

ST. LOUIS, June 29.

The following dispatch has been sent to Gov. Hendricks:

The convention has nominated you by an unanimous vote for the office of Vice President of the United States. We urge your acceptance. We hope to be at your city at 5:30 tomorrow evening.

(Signed) AUGUSTUS SCHELL,
JOHN KELLY.

Serenade to Gov. Tilden.

ALBANY, June 29.

The serenade to Gov. Tilden tonight of the Jackson Guards was a great success. Not less than five thousand citizens surrounded the executive mansion. Many private dwellings were illuminated and decorated with flags and Chinese lanterns. Every window in the Argus building was illuminated and decorated with flags, presenting a brilliant and effective appearance.

The Executive Committee Organize.

ST. LOUIS, June 29.

The national democratic committee met this afternoon, and organized by electing A. S. Hewitt, of New York, chairman; and F. O. Prince, secretary. The following were appointed the executive committee: John G. Priest, of Missouri; M. M. Ham, Iowa; G. L. Miller, Nebraska; Wm. H. Barnum, Connecticut; Miles Ross, New Jersey; M. W. Ransom, North Carolina; John G. Thompson, Ohio; W. L. Scott, Pennsylvania; W. B. Bate, Tennessee.

The Democratic Ratification.

WASHINGTON, June 29.

The Democrats of the districts have fixed upon the evening of Thursday July 6th, for a grand Tilden ratification meeting and will occupy the same platform at City Hall as that used at the Hayes and Wheeler ratification meeting.

VICE PRESIDENT WHEELER.

Enthusiastic Reception at his Home.

MALONE, N. Y., June 29.

Hon. W. A. Wheeler returned to Malone this morning. He was welcomed at the depot by cheers of hundreds of his fellow townsmen, by music and firing of cannon. A procession was formed headed by a band and escorted him to his home. He spoke briefly under great excitement and with much pathos.

Mr. Wheeler retired amid hearty applause. He was deeply affected as he referred to the desolation which had come upon his home, and in the sympathy shown by the audience might be read the esteem and love in which he is held.

MORE ABOUT THE DEMOCRATIC CONVENTION.

SOFT MONEY MEN DISGUSTED.

Ohio and the West Conceded to the Republicans.

TAMMANY YIELDS TO DESTINY.

ST. LOUIS, June 29.

At the close of the struggle yesterday, ending in the nomination of Tilden, there existed a very keen and bitter feeling among the western delegates, who fought for more concessions on the financial questions. Some very strong threats were indulged in, and not a few declared that they would not support Tilden and the platform adopted.

Soft Money Men.

The leaders of the greenback element realize fully how overwhelming their defeat has been, and they will return to their homes with little heart in the coming contest. The eastern Democrats, and particularly the friends of Tilden, believe that all dissensions will disappear.

Concessions to the Enemy.

Several prominent Ohio Democrats told your correspondent today before the convention met, that nothing could be done by the convention which would prevent their state from going Republican in October. They believe that Hayes will carry Ohio by at least 30,000 in November.

Senator Wallace, of Pennsylvania, said that the Democrats of his state would be heartily disappointed at the nomination of Tilden, and thousands of them would stay away from the polls. He considered his state now hopelessly Republican in November.

FROM WASHINGTON.

NEWS FROM WASHINGTON.

The Famous Mule Contract Case.

WASHINGTON, June 29.

Messrs. H. S. Foote and S. E. James as counsel for Thomas P. MacManus, in the name of the United States, on Wednesday, entered a suit in the clerk's office, against William B. Moore, John A. Thompson and Benjamin A. Groom, administrators of the estate of Harrison P. Thompson; Benjamin H. Bristow, Hugh Anderson and J. C. Kennedy, administrators of the estate of Joseph D. Fuller, to recover damages for the payment of a fraudulent claim on the 6th of February, 1874. One thousand mules were to be delivered before the 25th day of April, 1865, at $160, $167.50 and $175 each, for $150,000, which was paid on a claim purported to be founded on a contract for mules, alleged to be violated by the government, and for which alleged violation the amount mentioned was claimed as damages and received from the United States. This suit is not brought by the United States authorities, but by a private citizen. The act of March, 1863, authorized any citizen to bring suit in behalf of the United States in case of frauds on the government, and give the person bringing the suit one half of the forfeiture, $2000, and also one half of the damages claimed in the case, but makes the prosecutor liable for all costs, if the suit is decided in favor of the defendant.

The Appropriations Resolution.

It is probable the House will promptly agree to the joint resolution passed today by the Senate without a single objection, providing for defraying temporarily the ordinary and necessary expenses of the public service by extending the appropriations for the present fiscal year which ends with tomorrow to the next thirty days.

The Blaine Letters.

WASHINGTON, June 29.

Judge Pierrepont's reply to the Judiciary Committee, relative to the Mulligan-Blaine letters, which were submitted to him, states that the letters were read to him by Mrs. Blaine; that they were, so far as he can remember, fifteen in number, and so far as his recollection goes they were the same letters which Mr. Blaine afterwards read to the House; that he absolutely refused to give any opinion about them, or to be retained for that purpose, as he conceived his appointment as minister to England made it improper; that it seems to him that the second letter as he read it in the record was shorter than the corresponding letter as read to him from manuscript. In this Pierrepont's memory was correct, as it is known that by an error of the congressional printer, a part of this letter as read to the House by Blaine was omitted in the record.

THE DEAD LOCK.

Bristow's Mule Contract.—The Blaine Controversy.

It is quite possible that the dead lock on the appropriation bills may be broken tomorrow and the bills all passed during the night. The Senate has sent to the House the President's resolution to provide for the possible emergency of the failure of the appropriation bills. The purpose of the republicans in doing this was to prevent the republicans from sharing the responsibility of the stoppage of the government in the branch of the legislature where they have the authority, and to make it appear that the dominant majority in the lower House is alone responsible in the event of a failure of the general bills.

FROM NEW YORK

WARLIKE NEWS FROM SERVIA.

NEW YORK, June 29.

A Belgrade special is as follows: Events of the greatest moment may be daily expected in Servia. The people have finally determined to take any steps and make any sacrifice necessary to secure the autonomy of Herzegovinia and Bosnia. Nothing further is aimed at. The salutation is uninfluenced by Russia. Servia acts independent and desires no intervention.

MISCELLANEOUS.

LARGE FIRE IN FALL RIVER.

Loss about $200,000.

A fire broke out early last evening in the west mill of the American Linen Co., foot of Ferry street, Fall River. It originated in the drawing and slashing room, near the centre of the sixth story, and was not checked until after 10 o'clock, when the entire upper portion of the mill had been destroyed. The linen company run two mills, containing 82,512 spindles, and manufacture print cloths. The entire insurance on the property is probably something over $800,000.

The loss on the west mill is estimated at about $200,000, or perhaps fifty per cent. of the insurance applicable to that mill. The insurance on the entire property is mainly in manufacturers mutual companies, and is believed to be placed about as follows:

Manufacturers Mutual, Providence	$ 60,000
Rhode Island	75,000
Firemans	75,000
State	75,000
Blackstone	60,000
Mechanics	50,000
Merchants	20,000
Total in Providence Mutual Cos	$395,000
Boston Manufacturers Mutual	$150,000
Arkwright, Boston	75,000
Worcester Manufacturers Mutual	75,000
Fall River Manufacturers Mutual	75,000
In stock companies	50,000
Total insurance	$820,000

The loss on this line of insurance, we infer from last reports, will be about twenty-five per cent. The fire at 11 o'clock was completely subdued.

STATE MISCELLANY.

We learn that efforts which are likely to be successful are being made to have the annual reunion of the Second R. I., regiment, on July 21st, (the anniversary of the battle of Bull Run) in Bristol.

Hon. L. W. Ballou returned from Washington Thursday in good health and spirits. He represents the atmosphere of the capital as exceedingly sultry during the past week. The dead-lock on the appropriations he regards as assuming a serious character, with no signs of an agreement when he left the right bank of the Potomac.—[Woonsocket Patriot.

A party of roughs, numbering about fifty, including several females, landed at Mount Hope on Sunday last, and demanded permission of Mr. Nichols, who has charge of the grounds and buildings, to use them for a dance and general carousal. They were informed that Sunday parties were not permitted on these grounds, and they were requested to leave, but refused, and taking forcible possession of the buildings, used them at their pleasure, Mr. Nichols remonstrating in vain. Night approaching, the party took to their boats, and when last seen were steering for the city of spindles. Before leaving they were very insolent to Mr. Nichols and his family, and threatened to renew their visit. The authorities have the matter under consideration, and will doubtless take measures to prevent a repetition of this Sabbath desecration, which is in direct violation of the intentions of the present owners of this beautiful historic spot.

REVIVE THE DROOPING ENERGIES

When the physical energies droop, revive them with that safest and most active of tonics, Hostetter's Stomach Bitters. By a timely use of this salutary and agreeable medicine you will save yourself from positive disease; for, be assured that the languor and loss of strength and appetite which troubles you is in fact the precursor of some malady of, perhaps, a serious nature. Appetite, tranquillity of the nervous system, and pristine vigor, will assuredly be restored if the Bitters are used systematically, and the alimentary disturbance, which in nine cases out of ten gives rise to debility and nervousness, be entirely removed. Regularity of the bowels, active biliary secretion, the expulsion of impurities from the blood through the kidneys, are also among the beneficent effects of this admirable restorative.
je26-1w-n&]

THE AMERICAN PEOPLE.

No people in the world suffer as much with Dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as Sour Stomach, Heart-burn, Water-brash, Sick Headache, Costiveness, palpitation of the Heart, Liver Complaint, coming up of food, low spirits, general debility, etc., yet since the introduction of GREEN'S AUGUST FLOWER we believe there is no case of Dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your Druggist, James H. Taylor, and get a Sample Bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

THE DAY.

Commodore Vanderbilt is still very low but said to be slightly improving.

Gen. Burdick has already mounted his high horse for the coming Fourth.

Why should the work of putting Bellevue avenue in order be deferred until the height of the season?

Gov. Tilden expresses the opinion that he can carry New York by 50,000 majority. Most other people think it doubtful.

The American Linen Mills, of Fall River, were burned last night. About 800 operators are thus thrown out of employment.

The best joke of the season—William E. Dodge's despatch to the democratic convention asking it to pronounce against whiskey.—[N. Y. Herald.

There is a falling off of about 40 per cent. in the pleasure travel to Europe. This is credited in part to the centennial, and in part to the hard times.

There are a great many men about town who during this hot weather have shown no signs of laziness but are troubled with a chronic indisposition to exertion.

Dr. Eben Tourjee has been engaged to conduct the music this year at Martha's Vineyard camp ground. He will probably organize a large chorus choir.

People having letters to write should push their correspondence forward as fast as possible. The indications now are that the Post Office Department will be closed at the end of the fiscal year which is at hand. Economy is a great thing.

We understand it to be the purpose of the mayor to forbid the usual unseemly demonstrations on the night of the 3d and early morning of the 4th of July and that an extra force of police will see that the order is enforced. The movement will receive the approbation of all our best citizens.

The Evening Mail says Murray Hill begins to look deserted. Long rows of heavy brown stone houses are closed; the dust has settled on the blinds and on the door ways; the knobs are black for lack of Bridget's scouring; nobody calls, save the policeman now and then to try the doors, and the entire neighborhood presents a "not at home" aspect.

The underwriters express great fears of extensive fires on the coming Fourth. It is expected there will be an unusual display of fire works, and consequently greater exposure than in preceeding years. The dry weather also is one of the causes of alarm. In view of all the circumstances it will be well for property owners to exercise special vigilance, and keep a steady watch over imperilled interests.

THE EASTERN QUESTION.

The hope that has been entertained that the difficulties in the east were about settled for the present is well nigh dissipated. Just now the outlook is very threatening, and we need not be surprised to hear of the clash of arms at any moment. The Turkish provinces Hersegovinia, Servia, and Bosnia are already in rebellion, and troops are moving into the territory beyond their borders. At the same time the wives and children of the insurgents are fleeing to Austria for protection, more than 20,000 it is said having already crossed the line. These provinces can command strong armies, Servia alone being able to contribute 100,000 men. Besides, they are in their own territory, a mountainous region, where they have many advantages over an approaching enemy. And then the rebellion is quite likely to spread into other provinces, and if the war once really begins, it is difficult to tell where it may end. It has generally been supposed that it would involve the peace of all Europe, as when the sick man's estate is divided there are several contesting claimants who will not be easily put off.

But it is now intimated that the European nations will agree, or have agreed to stand back and allow Turkey to settle these affairs on her own territory. In this way only can peace be preserved. The great powers will not consent that any one of their number shall profit by the misfortunes of the Ottoman Empire, and if none attempt it, all will be quite satisfied.

But such is not the customary way of kings and potentates. Russia, especially, has an eye on the frontiers and has been ready to appropriate any stray bits of territory that might come within her reach. Austria, also, looks wistfully in the same direction. But neither France nor England will consent to any acquisitions of this sort. They insist on maintaining the balance of power in Europe and stand ready to cry, hands off. More than that, they will enforce the demand, and hence arises the danger of a general war in case an attempt is made to dismember Turkey. That the Turkish empire is badly governed and that its dismemberment would be in the interest of its own people, and of the world at large there can be but little doubt. No such despotism should be allowed to exist, and if the empire shall fall in pieces there will be no occasion for regret. It is evident that the time for its dissolution is at hand.

ST. LOUIS NOMINATIONS.—OPINIONS OF THE PRESS.

The N. Y. Herald says:

"It must be conceded by friends and enemies alike that he has proved himself one of the ablest and most astute managers that ever appeared in the politics of this country. We shall have an honest President, a safe administration and a steady progress toward specie payments and business prosperity, whether Governor Hayes or Gov. Tilden carries off the honors of the canvass."

The Tribune says:

The democratic convention has placed an admirable candidate upon a bad platform in adopting as its leader the only Democrat who has distinguished himself as a practical reformer. The democracy does something to earn oblivion for its past and give us hope for its future. But in the platform the party commits itself to a course of national dishonor, and avows in advance that it has no idea of adopting the policy of the statesman it has chosen for a leader.

The Cincinnati Inquirer, (democratic) says:

"The nomination will fall heavily upon Ohio, Indiana, Illinois and other Western states. There will be a revulsion all along the centre; for the party in its wisdom has virtually abandoned these states. We prefer Tilden to Hayes and shall advise the Democratic organizations to stand by the nominees.

The World says:

"Cincinnati gave the nation a candidate without a purpose on a platform without a meaning. St. Louis responds with a candidate whose name is the symbol of reform, upon a platform which means a peaceful revolution in the conduct of the government. The Republicans made Bristow mean reform for them, and Tilden means reform for the Democracy. Cincinnati trampled the name of Bristow under foot. St. Louis sets the name of Tilden in letters of light on the banners of a united Democracy.

The Boston Post gushingly exclaims:

The hour and the man at last have met. In the triumphant nomination of Samuel J. Tilden by the national democracy the hopes of the country are suddenly revived. It is a positive movement for political regeneration. The scales fall from the eyes of the people in the clear light of this proceeding. For the work of reform a successful reformer is needed. Tilden is a leader of men, a superb organizer, a profound political economist, a determined foe to all form of public dishonesty and corruption. There is not a man in the democratic ranks or in the whole country who is his equal in all the positive qualities that are demanded by the times.

The Witness says of Tilden's nomination:

Gov. Tilden made a vast amount of money out of railroads. There is much curiosity to know how it was done. Of course he will have against him the whole temperance strength of the country and nearly all the public opinion, which carried through the late war to a triumphant issue. How he stands on the public school question we know not, but we presume he will have all the influence of the priests in his favor.

The Commercial Advertiser says of Tilden's nomination:

By a test vote of 550 to 219 of the softest money demanded by Pennsylvania and the West, the convention, yesterday, voluntarily surrendered these states in the October and November elections and nominated Mr. Tilden of New York on a platform even less creditable in respect to the debt paying than the inflation plank they had voted down. If on such terms the convention hoped to make sure of the electoral vote of this state, they have missed the mark, as they were warned by the New York malcontents they would.

We have shown so many attentions to Dom Pedro, as the head of a great nation, that we should do something to show our appreciation of the delegation of French workmen which left Havre the other day to visit the Centennial. Dom Pedro came from an Empire; these workmen come from a Republic. They come from a people with whom we should be only too glad to fraternize in this Centennial of a liberty which we owe largely to France. The coming of these workmen is a notable event, and we trust they will be welcomed as Republicans and workingmen.—[N. Y. Herald.

Foote, the actor, patronized Brighton, and for mimicking the good parish priest was cornered by the parson's fighting parishioners, cane in hand. Foote apologized by saying, "I imitate everybody. Why, I take off myself; I will show you." At the same time stepping slily behind a gate, he shut it in their faces, and hastened away with a "Good morning, gentlemen."

You come well recommended I suppose?" said a gentleman to a boy who wanted an easy place. "O, yes, sir; the man I was with last recommended me; he recommended me to leave, and get work more congenial with my disposition."

LITTLE COMPTON.

Both the Congregationalist and Methodist churches have had successful strawberry festivals this week.

Quite a number of Summer visitors seek the quiet and pleasant shores of the town this season. No place in New England has more attractions, especially to lovers of good fishing.

A correspondent of the New Bedford Standard gives a new version of the Bone story and says the recent commotion in that town in relation to the disappearance of Mrs. John Bone was caused by Mrs. Bone's sister Jenny Turner, who originated the suspicious rumors in regard to Mrs. Bone having been murdered by her husband, when she knew where the absent woman was, and was in correspondence with her. She sent Mrs. Bone $5 a few days after she left, and received two letters from her. Mr. Bone saw the superscription of the letters and knew them to be in his wife's hand. On the strength of the letters he employed Dr. I. B. Cowen to search her out, and the doctor found her living in Boston under the assumed name of Annie McClure. If this be correct then Jenny is a bad girl and should be looked after.

JUSTICE COURT.

FRIDAY, JUNE 30.

The complaint against Daniel Haggarty, Daniel Rohalley, Edward Kelley and Martin Shea all minors under eighteen years of age, for larceny of bananas from a building on the Long wharf, was called up today for trial—Mr. Sheffield appeared as counsel for Edward Kelley, whom the court after hearing the testimony for the prosecution, discharged. The sentence of the other three, if sentenced they shall be, was reserved, and there seems to be a wish that, in consideration of the extreme youth of these offenders, justice may be tempered with mercy—and as reform, and not punishment, in such a case, ought to be the object of the administration of justice, this is doubtless a "consummation devoutly to be wished for."

James Stratton was arraigned and tried for an assault upon his wife, was adjudged to be guilty and fined three dollars and costs, which James paid and departed, it is to be hoped a wiser, if not a better man, than to lay violent hands again on the partner of his joys and sorrows, but not of his hard knocks; for that was not in the bond.

POISONOUS WALL-PAPERS.

In the Boston Medical and Surgical Journal for May 11 there is a paper by Francis H. Brown, M. D., on arsenical paper hangings, which contains some very important and interesting statements. It has long been understood that an insidious peril lurks in the very attractive green paper hangings whose brilliancy of color is obtained by the use of arsenic compounds; and every now and then is reported a case of serious or fatal poisoning traceable to no other cause. But manufacturers continue to make these papers, and people who are either ignorant or indifferent continue to use them, thereby spreading the seeds of disease and often opening the way to a slow and painful death. Dr. Brown, in the paper to which we refer, gives in detail the symptoms attending seven cases of poisoning from this cause which have lately come under his own observation. The poisoning in the several cases affected the digestive, circulatory and nervous systems; and among the symptoms noted were lassitude, rough, dry skin, carbuncles, cramps in feet and limbs, sore throat feverishness, diarrea, a dull pain in the base of the brain and the spine, weakness and soreness of the eyes, etc. In every case it was found that the patient had been in the habit of occupying a room which was papered with green hangings, and in every instance the removal of the patient from his accustomed room, or the removal of the poisonous paper from the walls, brought about a complete cure. In most of the cases cited, the poisonous influences had been at work several years before their results attracted attention, and the progress of the malady had been exceedingly slow. Dr. Brown in each case examined the paper carefully, and found large quantities of arsenic. The pigments used by manufacturers of arsenical wall papers, he explains, are composed very largely of arsenite of copper and of aceto-arsenite of copper or Schweinfurth gum, the former containing 50 per cent and the latter 58 per cent of arsenious acid. These dangerous elements are applied to the paper by size, giving but a feeble cohesion when exposed to the air, or to the danger of attrition from any causes. As a consequence, of course, detached particles of the arsenic poison float in the air and are breathed in by the inmates of the rooms. Even the flock papers which have been regarded as innocuous often have a layer of arsenical figment which in time becomes equally dangerous.

WHERE IS THE GREAT WEST?

It is but a few years since what was known as "the West," comprised Ohio, Indiana, Illinois and Michigan. These are now the Eastern Central States of the Union. The star of Empire kept its westward way—the Mississippi was soon crossed and Kansas and Colorado were settled. When the Mormons, driven from Illinois, found a resting place in Utah, they supposed they had gone so far beyond the farthest outpost of civilization, that Gentiles would give them no further trouble. Up to that time there had been no emigration except from East to West, for so long as reliable history bore testimony. But now began a different state of affairs. From the Pacific coast came a few pioneers across the Rocky Mountains. What had before been West to almost the whole world, had become East to thousands. Draw a line direct from the most densely populated part of Europe west to China and it passes near Portland, Chicago and San Francisco. From each end of this line multitudes are wending their way to our vast uninhabited country, where there is room and to spare.

It is estimated that all Europe has 80 inhabitants to a square mile; England has 110 and Germany about 200. One of the provinces of China has over 800; the average of the empire is over 100. Japan has more than 200 inhabitants to a square mile. The United States and territories (exclusive of Alaska) have over 3,000,000 square miles, with an average population of less than 13 to a square mile. Of the more densely settled states, Massachusetts has 190, Connecticut 111, and Rhode Island 167. With the same density of population Illinois would have more than England.

The "Great American Desert," so much talked of in the past, does not exist; and although considerable territory west of the Mississippi is occupied by mountains and alkaline plains, there is, comparatively, but a small portion of our vast domain that can not be compelled by proper means to contribute to the support of man. But should the great West—or the great East, whichever it may be to immigrants—ever be filled and our seaboard states, both Atlantic and Pacific, become uncomfortably crowded, Mexico on the one side and the British possessions on the other will gladly open their door to all comers who will apply for admission in the proper spirit.

What will be the final result of the mixture of the races and particularly of those so widely separated as are the Caucasians and the Mongolian, if they ever do mix—time alone can determine. Enough for us to welcome all whose condition will be improved by their coming among us. We know nothing of what the great future has in store for our country, but should remember that men's years are only God's moments and as He has made of one blood all nations of the earth, they should strive to live together in the peace and unity calculated to promote His glory and their welfare.—[Moores Rural New Yorker.

AN APOTHEGM.—"There is a class of persons who have great repugnance to the liberty of the press. It is composed for the most part of those who have suffered in reputation because the press has discovered what manner of men they are."—[Boston Advertiser.

DR. SCHENCK'S PULMONIC SYRUP, SEA WEED TONIC, AND MANDRAKE PILLS.—These medicines have undoubtedly performed more cures of consumption than any other remedy known to the American public. They are compounded of vegetable ingredients, and contain nothing which can be injurious to the human constitution. Other remedies advertised as cures for consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure impossible. Schenck's Pulmonic Syrup is warranted not to contain a particle of opium. It is composed of powerful but harmless herbs, which act on the lungs, liver, stomach, and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body. These are the only means by which consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine is accompanied by full directions. Dr. Schenck is professionally at his principal office, corner Sixth and Arch streets, Philadelphia, every Monday, where all letters for advice must be addressed. 5-6 1m

THOMPSON'S POMADE OPTIME, for dressing the hair.—This fine pomade merits special attention. Purely vegetable, its effect is to soften and refine coarse dry hair, imparting to it gloss and beauty. Unlike many preparations for the hair, it cannot injure, but is highly beneficial, equally so, to the rich golden hued tresses of youth, the darker shades of middle life, or the silver streaked locks of age. 25 and 50 cents per bottle. Sold by druggists.

PRESERVE ECONOMY.—Renovate your soiled gloves thoroughly and quickly, with JOUVEN'S INODOROUS KID GLOVE CLEANER. 25 cents per bottle. Sold by druggists. march-eod-1w eow

PATENT

PARABOLA SPECTACLES.

The advantages of the Parabola Glasses over the old form of Spectacles, are a greater density of material, perfect surfaces, and Parabolic form. These qualities, united, form the most perfect of lenses, in the perfect transmission of light, joined to their peculiar form the wearer of the Parabola Spectacles is enabled to prosecute the most trying labors of the eye without those distressing results which follow the use of all other glasses. A peculiar and important feature in these Spectacles is witnessed in cases where young persons have been obliged to resort to the use of glasses, from some physical debility having affected temporarily their vision. In such cases the eyes soon regain its healthy powers, and the glasses can be laid aside without having had the least tendency to affect the eyes so as to demand their continued use.

[From Dr. George McClellan, Philadelphia.]

I have recommended the "Parabola Spectacles" to several of my patients, and have received from most of them warm encomiums upon the article. They assert that these glasses do not fatigue the eyes by long use, as is apt to be the case with the double convex Spectacles, while the command of the eyes over the object of vision is much greater. This corresponds with the opinion any optician would form from his knowledge of the principles upon which those glasses are adjusted—so as to converge the rays coming from different quarters to the same focal distance. The eyes can be turned to a considerable extent, therefore, under these glasses, without involving the necessity of moving the head.

—OF THE—

POTATO BUGS.

AT A MEETING of the Potato Bugs held at Newport, R. I., June 27, 1876, the following preamble and resolutions were adopted:—

WHEREAS—It has pleased the farmers and others of Newport and vicinity, to wage incessant war against our race, and

WHEREAS—A party in Newport, R. I., known as W. H. GREEN & CO., at 143 Thames street, have greatly aided said farmers and others by the sale of PARIS GREEN, and

WHEREAS—Said PARIS GREEN meets the approval of the aforesaid farmers and others as being the best article known for the extermination of our race, and

WHEREAS—The said W. H. GREEN & CO., are extensive dealers in Leads, Oil, Glass, Putty, Beeswax, Copperas, (a very good disinfectant,) and all other articles found in a well stocked paint store, therefore

Resolved—That we do all in our power to prevent the aforesaid farmers and others from purchasing anything from the aforesaid W. H. GREEN & CO.

Resolved—That a copy of the foregoing resolutions be published once a day for ten days in the NEWPORT DAILY NEWS.

Resolved. That each and every farmer purchase a copy of the said DAILY NEWS.

1876 NEWPORT DIRECTORY. 1877

Mr. ANDREW BOYD,

Publisher of directories for the past twenty years, in returning thanks to the business and private residents of Newport for their kind patronage to his last directory, now takes pleasure in informing all merchants, banks, hotels, springs, storekeepers, and all business people, that he will now commence the canvass for the new directory for 1876–7. It is my intention, and by your assistance to try and make this the most correct and complete work of the kind published. Everybody is respectfully asked, and we hope will cheerfully oblige all of my canvassers, by giving them full and correct information that they may desire. Please give your correct number of stores and residence, as your places will be designated by such numbers. je22

Tax Assessors' Notice.

THE ASSESSORS of taxes of the city of Newport, hereby give notice that they will meet and be in session in the common council chamber in the City Hall, in said Newport, every day, (Sundays excepted,) from and including Monday, July 17th, 1876, to and including Saturday, July 29th, 1876, from nine o'clock, A. M., to twelve o'clock, M., and from two o'clock to five o'clock P. M., for the purpose of assessing and apportioning on the inhabitants of said city, and the ratable property therein, the tax ordered and levied by the city council of said city on the 13th day of June, 1876.

Every person and body corporate liable to taxation in the premises, is hereby notified and required to bring in to said assessors, within the time or times, and at the place of the meeting and session of said assessors as above designated, a true and exact account of all his ratable estate, describing and specifying the value of every parcel of his real and personal estate.

"The General Statutes of Rhode Island provide that "every person bringing in any such account, shall make oath before some one of the assessors, that the account by him exhibited contains to the best of his knowledge and belief, a true and full account and valuation of all his ratable estate, **and whoever neglects or refuses to bring in such account, if overtaxed shall have no remedy therefor."** Executors, Administrators, Guardians and Trustees are hereby notified that all the foregoing applies to them and to trust estates as well as to other persons and property.

ROCKY POINT!

A Charming Summer Resort

Situated Midway Between Providence and Newport, R. I.

THE SEASON OF 1876

Opens on the First Day of July.

In a day's excursion from Newport and vicinity, for Military Companies, Civic Societies, or Sunday Schools, it has unsurpassed inducements. Leaving Newport in the morning, Rocky Point is reached in season for dinner, after which the time can be profitably and agreeably spent in looking at the various attractions about the grounds, among which may be enumerated the CAMERA OBSCURA, giving a living picture of all surrounding objects, both on land and water; the Observatory 150 feet above high water mark, from the summit of which can be seen a dozen different villages, and many miles of the beautiful Narragansett Bay, while at the same time the visitor can have refreshments of all kinds served in the sitting-room at the top; FLYING HORSES, run by steam; an INCLINED RAILWAY, ORNAMENTAL FLOWER GARDEN, FANCY FOUNTAINS, RUSTIC BASKETS, FREE MENAGERIE, BOWLING ALLEYS, &c.

Here is also a fine BEACH FOR BATHING, and upwards of one hundred Bathing Houses, with suitable costumes always to be obtained.

The Dining Hall, where the famous SHORE DINNERS are served, consisting of Baked Clams, Baked Fish, Chowder, Clam Fritters, &c., is the largest in the country, capable of seating fifteen hundred people at one time, price of said dinner being only fifty cents.

Besides this there is a large Restaurant, where the bill of fare embraces everything the market affords.

☞ Prices have been materially lowered this year, in accordance with the times. Refreshment stands are located in various parts of the grounds, and in a shady grove can be found the handsomest and coolest Ice Cream Saloon in New England. Free Dancing can be enjoyed in a cool and spacious Hall set apart for that purpose. Music by BROWN & REEVES' FULL ORCHESTRA.

ROCKY POINT HOTEL

will be kept, as usual, on the European plan, with prices much lower than formerly; special arrangements for rooms, including board, will be made with families desiring to remain for a specified time.

The undersigned, in commencing his tenth season at this popular resort, takes this opportunity to return his sincere thanks for past favors, and hopes to meet a continuance of the same.

AGRICULTURAL.

HUNGARIAN FOR COWS.

The following is the testimony of Dr. Loring, respecting Hungarian grass cut I believe that I can make more milk with this grass and mixed with corn meal and shorts than I can with the best timothy hay cut and mixed in the same manner. And when you remember that you can raise on ordinary land, by sowing the seed of Hungarian grass late in June, from two and a half to three and a half tons of good fodder to the acre, and that this crop can be sown after we have ascertained whether we are to have a good crop of hay or not, you will see the value of this grass. I have such a high opinion of it that on my farm this year and last I raised from seventy five to one hundred tons of it for the purpose of feeding to my milch cows during the Winter.

FEED FOR HORSES.

The appropriate kind of grain to be fed must depend upon the work to be performed. If the horse is to be driven rapidly on the road, then only such grain as contains a large portion of nitrogenous food should be used, such as oats, peas, wheat bran, oil cake, etc. Probably the best ration for medium sized livery horses is eight pounds hay, eight pounds oats, four pounds fine wheat bran and one half pound oil meal per day, costing, at present prices, thirty cents, but frequently not more than twenty cents. This small amount of oil meal should not be omitted, as it will generally prevent constipation, and assist in the digestion of other food. It is much better to regulate the bowels of the horse with food than with medicine. If the oil meal does not keep the bowels sufficiently free, use occasionally a little steeped flaxseed. This is much safer than linseed oil, as that is liable to be adulterated. Rye or barley meal may be substituted for a part of the oats.

For draft work with a walking gait, whether on the farm or in the city, the best ration is corn and oats, or corn and barley ground together and mixed with moistened cut hay; in this case, ten pounds of the mixed meal and one half pound of the oil meal, or eight pounds of the meal with four of fine bran, costing in most places not over twenty five cents per day. A few potatoes, carrots, beets or parsnips are excellent for the health of the work-horse.

For horses not at work, or having only a little exercise, sixteen pounds of early cut hay, four pounds oats, with a few roots or a little oil meal, will keep them in fine condition and good health. Such horses may also be kept on clover and timothy hay, without grain, if that is cheaper; but no animal should be kept throughout the Winter on dry food alone. Variety of food should be provided, so far as this can be done with economy.—[Live Stock Journal.

Sewing Machines.

THE SUPERIORITY OF THE

REMINGTON

Sewing Machine

Is acknowledged by competent judges in the following particulars:

1. It is constructed on the soundest mechanical principles.
2. It is made with the best material by the best workmen.
3. Its wearing surface is more evenly distributed than that of other shuttle machines.
4. It has no harsh jarring motions.
5. It runs much lighter, stiller, and with less wear than other shuttle machines.
6. There is less wear on the needle bar and cam than in other machines.
7. Less motion is given to the shaft, carrying the needle bar and feed than in other machines.
8. The feed is positive, silent and automatic.
9. The length of the stitch is more easily regulated.
10. The needle is more easily threaded. There are no holes for the thread to pass through, but the eye of the needle.
11. There is no wear or strain on the thread to set it firmly in the cloth.
12. It has no objectional levers, no heavy rotary cams, no noisy cog wheels, which are always grinding or breaking.
13. It is so constructed that it can run twice the speed, do double the work and last twice as long as other shuttle machines.

COR-CORAN'S IMPROVED WIND MILL!

ATTENTION is invited to this improved mill, as surpassing all others in Simplicity, Efficiency, Symmetry and Economy. Recent improvements have reduced the friction joints from 60 to only 4, and being provided with patent lubricating cups, it may run thirty days by once oiling. It may be cheaply mounted, (the smaller mill costing only $65.00), or by an artistic tower it may be set to become an ornament as well as an invaluable convenience at every suburban residence. I would be pleased to attend those in want, or refer to engineer at Torpedo Station, whose practical experience will enable him to explain its merits more fully.

GEO. H. WEAVER.

Having removed my place of business from Commercial Wharf to **No. 19 BROADWAY** for the better convenience of my patrons, and arranged to continue my repair department (thus protecting the implements I sell), and to offer all goods appropriate to the wants of Farmers, Gardeners and Citizens (in my line), I would respectfully solicit continued patronage. I offer Wilson's and Brighton as the standard fertilizers. Guano, Bone and Plaster constantly in stock. The Archimedian, Charter Oak, Excelsior and Philadelphia Lawn Mowers for man or horse. Plows of all kinds, Harrows, Rollers, Barrows, small tools, &c., &c. Please call and consult catalogues of the leading dealers in larger cities. Our prices are as low.

Every lover of flowers will find a convenience in our list, packages of fertilizer, put up specially, with directions for use. Grass, Garden and Flower Seeds in stock.
